

We are requesting, as American citizens, that the FCC, an organization established by American citizens and for American citizens, NOT replace the K-LOVE FM radio station with a LPFM content station. K-LOVE provides my wife and me with much needed wholesome content every day. The effect of losing K-LOVE would be tremendous not only to us but the entire listening community who seeks the peace and messages this station provides. K-LOVE is a true differentiator in the present times where our child is constantly bombarded with commercialism that borders on being tasteless to put it mildly. K-LOVE provides a safe haven for adults and children alike and therefore I respectfully ask that you leave the station where it is on the FM dial. Thank you.
